

The Research Process

You will make flash cards to master the research process.
Instructions.

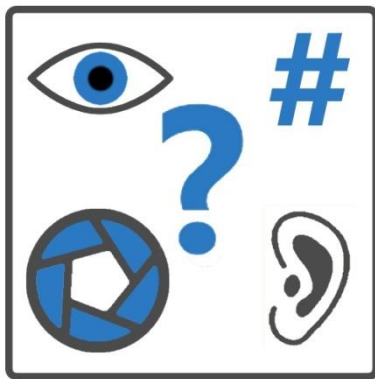

1. Print out this page. Cut out each icon along the dashed lines. Fold the verbal description over on the solid line so that it appears on the back of each flash card.
2. Use the icons as flash cards. Choose a card and give its verbal description. Repeat until you can correctly describe all the icons.
3. Mix up the icons. Practice putting the icons in numerical order. Continue until you can put them in proper order.

1. Define the Research Question

2. Determine where answers may be found

3. Determine method(s) to gather data

4. Develop the research plan

5. Determine the budget and raise funds

6. Gather data

7. Verify data and check for bias

8. Analyze Data

9. Draft the Report

10. Disseminate results
