

“The Nehemiah Option”

Concerted Prayer for a Broken World

Introduction

This document contains a prototype prayer deployment plan. I shared this with selected people six years ago in 2017. Apart from this introduction, it remains substantially as it was at that time. God seemed to put the project on hold. I was cautious about what I had created. I shared it with a few, I received encouragement, but no one joined me to improve it and it was not published.

Now the time may be here. I am wondering if there are IT developers, data professionals and prayer strategists who are ready to collaborate on a new improved version. I am placing this version onto the web so that it can be read, shared and referenced.

My own prayer remains the same: May God grant that the Nehemiah Option somehow facilitates prayer mobilization and brings more energy and unity into those efforts.

Chris Maynard, Hebron, Wales, August 2023

As in heaven, so on earth – Jesus

=====

How to Use This Document

I recommend that you start by reading ...

[Why Prayer Deployment \(begins bottom of Page 1\)](#)

which gives you a basic explanation. Then find your own country (alphabetically) in the first column of ...

[Who am I Praying For? \(pages 3 to 13\)](#)

In the second column you will find the six countries to pray for regularly. Then, for interest, you can find your own country (alphabetically) in the *second* column of ...

[Who is Praying for Me? \(pages 14 to 24\)](#)

This section is identical to the previous one but sorted on the second column.

But you may have found that not every “country” is a single, whole country. Some larger ones are subdivided, and some smaller ones grouped together. The key to this is found in ...

[What Am I Part of? \(pages 25 to 30\)](#)

Navigating this document is cumbersome. I envisage that a future version will not be a document at all but will be supported by an interactive system sensitive to your context, which can also route you to online prayer materials about the countries that you are praying for.

Why Prayer Deployment

God is stirring His people across the world to pray. Not for a hundred years or more has there been such a desire. More and more we recognise that we cannot fulfil His

purposes on Earth by our own strength. Our own strategies and tactics are not enough – we need His sovereign wisdom. Our own passion and compassion are not enough – we need His steadfast love for the world. Our own energy and enthusiasm are not enough – we need His almighty power.

We are praying for our own nation. We are praying for the world.

We are praying for church leaders. We are praying for the lost.

We are praying for governments. We are praying for children.

We are praying for conversion. We are praying for transformation.

We are praying for cities and for the remotest least-reached peoples.

We are praying for revival in the Church and for movements among Muslims.

We are praying for our friends. We are praying for our enemies.

We are praying to the Lord of the Harvest to send out labourers into His harvest fields.

Together we pray “on Earth as it is in Heaven”

In the fifth century BC the Jews responded to Nehemiah’s challenge to rebuild the walls.

“Let us rise up and build” they said. (See Nehemiah 2:18) So in our day many are saying,

“Let us get down on our knees and pray”.

Mission Agencies are making prayer a priority. Prayer Movements are making mission a priority.

We have prayer meetings, prayer mountains and fasting prayer,

prayer circles, prayer calendars and listening prayer,

prayer chains, prayer retreats and houses of prayer.

We have concerts of prayer, seasons of prayer and 24/7 prayer.

Thank God that He is leading us in so many ways to pray. Whatever ways we use to pray, the Nehemiah Option offers us the possibility of intensifying our prayers. Using this framework, we can have both a more intense focus ... and a broader coverage. How can this be?

Not everyone can do everything – even in prayer. In Nehemiah chapter 3 we read of 42 work parties working on 42 sections of Jerusalem’s wall. For the next 52 days they worked on one section and got to know it well. Every group had a part of the wall and every part of the wall had a group.

In the same way “The Nehemiah Option” gives to you and the churches of your country some specific countries to pray for. This is your “section of the wall” to help rebuild.

You can get to know those countries well and get to know how to pray for them. Some

of them are very close to you and some may be far away, but all of them need your

prayers. You can remember these special countries in prayer even when the world’s

attention is diverted to the latest crisis in some different part. And when the latest

crisis comes to one of them you will be trained by practice to know how to pray. Indeed

you will have already laid the foundation for action.

Intelligent and effective prayer for the whole world seems an impossible task. And it is

impossible – for each of us. But it is not impossible for the Church. The Nehemiah

Option takes into account all the potential resources of the global Church, as well as the

needs of the whole world. In doing so, it brings meaningful engagement within reach of

every local church. If I cannot meaningfully pray for 200 different countries of the

world, I *can* pray for 6.

The time is here when, together as God’s Global Church, we can address all that he has

commanded us. Let the whole Church take the whole gospel to the whole world, and let

us do so first of all in fervent and united prayer.

Who am I Praying for?

Every country has six other countries to pray for. Where possible these have a close affinity to the country praying, but the needs of the world push many countries to pray for distant lands, such as Argentina praying for China – central.

Who is Praying for Me?

Some countries get more prayer than others, based on their need (largely population) and the number of evangelical Christians who might be praying for them.

What Am I Part Of?

Mostly this is countries praying for countries, but some smaller countries have been group together (such as Croatia and Slovenia into Balkans – North East) and some larger countries divided into regions such as Brazil.)
